

Sirs:

I **agree** with Ronald D. Lowrance proposal RM-10869.

We must keep the Morse code proficiency in Amateur radio; otherwise Amateur radio will be just an extension of the Citizen Band.

I do not think giving applicants or licensees an upgrade without working for it. I think there should be a new restructure of the license pool as in the RM-10868 proposal and a 10-day waiting period before retaking the Amateur test.

Thank You
Phyllis L. Singer (KA7JCT)
